ART UNIT 269  
PAGE NUMBER 27

DATE MAILED: 12/20/90

This is a communication from the examiner in charge of your application  
COMMISSIONER OF PATENTS AND TRADEMARKS

☒ This application has been examined ☒ Responsive to communication filed on Jan. 30, 1989 ☒ This action is made final.

A shortened statutory period for response to this action is set to expire Three month(s), \_\_\_\_\_ days from the date of this letter.  
Failure to respond within the period for response will cause the application to become abandoned. 35 U.S.C. 133

Part I THE FOLLOWING ATTACHMENT(S) ARE PART OF THIS ACTION:

- |   |   |
|---|---|
| 1. <input type="checkbox"/> Notice of References Cited by Examiner, PTO-892.        | 2. <input type="checkbox"/> Notice re Patent Drawing, PTO-948.                  |
| 3. <input type="checkbox"/> Notice of Art Cited by Applicant, PTO-1449.             | 4. <input type="checkbox"/> Notice of Informal Patent Application, Form PTO-152 |
| 5. <input type="checkbox"/> Information on How to Effect Drawing Changes, PTO-1474. | 6. <input type="checkbox"/> _____   |

Part II SUMMARY OF ACTION

1. ☒ Claims 29-33, 35, 37-43, 53-63 are pending in the application.  
Of the above, claims \_\_\_\_\_ are withdrawn from consideration.

2. ☒ Claims 1-28, 34, 36, 44-52 have been cancelled.

3. ☐ Claims \_\_\_\_\_ are allowed.

4. ☒ Claims 29-33, 35, 37-43, 53-63 are rejected.

5. ☐ Claims \_\_\_\_\_ are objected to.

6. ☐ Claims \_\_\_\_\_ are subject to restriction or election requirement.

7. ☐ This application has been filed with informal drawings under 37 C.F.R. 1.85 which are acceptable for examination purposes.

8. ☐ Formal drawings are required in response to this Office action.

9. ☐ The corrected or substitute drawings have been received on \_\_\_\_\_. Under 37 C.F.R. 1.84 these drawings are ☐ acceptable; ☐ not acceptable (see explanation or Notice re Patent Drawing, PTO-948).

10. ☐ The proposed additional or substitute sheet(s) of drawings, filed on \_\_\_\_\_, has (have) been ☐ approved by the examiner; ☐ disapproved by the examiner (see explanation).

11. ☐ The proposed drawing correction, filed \_\_\_\_\_, has been ☐ approved; ☐ disapproved (see explanation).

12. ☐ Acknowledgement is made of the claim for priority under U.S.C. 119. The certified copy has ☐ been received ☐ not been received ☐ been filed in parent application, serial no. \_\_\_\_\_; filed on \_\_\_\_\_.

13. ☐ Since this application appears to be in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11; 453 O.G. 213.

14. ☐ Other

Serial No. 555,357

Art Unit 269

1. The text of those sections of Title 35 U. S. Code not included in this action can be found in a prior Office action.
2. Claims 29-33, 35, 37-43, 53-63 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention *as* that of claims 1-13 and 15-34 of copending application Serial No. 277,959. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.
3. Claims 29-33, 35, 37-43, and 53-63 are of this application conflict with claims 1-34 of application Serial Number 277,959. 37 CFR 1.78(b) provides that where two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP 822.
4. The following is a quotation of the first paragraph of 35 U.S.C. § 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The specification is objected to under 35 U.S.C. § 112,

Serial No. 555,357

-3-

Art Unit 269

first paragraph, as failing to adequately teach how to make and/or use the invention.

Please note paragraphs 3-6 of the previous Office action which is hereby incorporated into this action.

As set forth in MPEP 608.01(p), "an application as filed must be complete in itself in order to comply with 35 USC 112." On pages 12-15 of applicant's response filed January 30, 1989, there are arguments directed to structure which would support functions set forth in the original specification and drawings. However, none of the structures or programs is in the original disclosure.

The description of the elements and programs in issue in the original disclosure and their interaction in the system can, in general, only be described as conceptual. As indicated in In re Knowlton, 481 F.2d 1357, 178 USPQ 486 (CCPA 1973), the invention claims must be described somewhere in the specification. Otherwise, it is left to the artisan to try to find out for himself precisely what is intended or will work to effect the suggested operations.

As indicated in In re Scarbrough, 500 F.2d 560, 180 USPQ 298 (CCPA 1974), the statute requires the application itself to inform, not direct others to find out for themselves.

The CCPA (In re Prater and Wei; 162 USPQ 541) held, "Apparatus and process claims broad enough to encompass operation.

of programmed general-purpose digital computer are not necessarily unpatentable; once a program has been introduced." Applicant's microprocessor with a memory is a digital computer. Therefore, its functions can only be supported by a disclosed program. Such a program was not in the originally filed disclosure.

5. Claims 29-33, 35, 37-43, and 53-61 are rejected under 35 U.S.C. 112, first paragraph, for the reasons set forth in the objection to the specification.

6. Claims 29-33, 35, 37-43, and 53-61 are rejected under 35 U.S.C. 103 as being unpatentable over Pinnow in view of Tolson and Aydin.

Pinnow teaches an electronically programmable remote control vehicle (column 4, lines 43-47) security (e.g. locking) system comprising a portable hand-held (e.g. pencil watch. See column 3, line 6) transmitter comprising means (column 2, line 55) for generating and transmitting a determined digitally encoded receiver signal or signals (column 3, lines 14-16), actuating means 24 for actuating said generating and transmitting means (column 3, lines 35-40 suggest plural key or transmitting means) so that said signal or signals are automatically generated and transmitted; a system control unit to obviously be disposed within said vehicle comprising receiving means 48 operable during a system program mode and a system operating-receiving mode for

Serial No. 555,357

Art Unit 269

receiving said transmitted encoded signal and generating an electrical signal representative of the encoded signal by amplifier 50; a digital memory (column 9, lines 17-25) for storing data representative of control signal; programming and operating means 52. Pinnow does not teach a radio frequency system.

At the time that the invention was made, Tolson (column 3, lines 53-62) had disclosed the interchangeability of a light and radio system. One of ordinary skill in the art having Tolson would readily find obvious that the teaching in Tolson could be used to substitute a radio signal for a light signal in Pinnow.

In column 2 lines 50-54, Pinnow points out that his invention can be used to replace a card. Aydin (column 98, lines 30-32) teaches a predetermined time delay means which can be used in a programmable security system. Since Pinnow's invention can be substituted for use in Pinnow because their teachings are interchangeable.

7. This is a continuation of applicant's earlier application S.N. 094395. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds or art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See M.P.E.P. § 706.07(b). Applicant is reminded of the

Art Unit 269

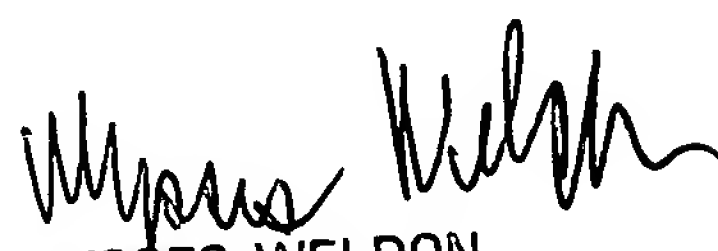

extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to U. Weldon whose telephone number is (703) 308-2668.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0962.
